

# Capsule Filling Machine

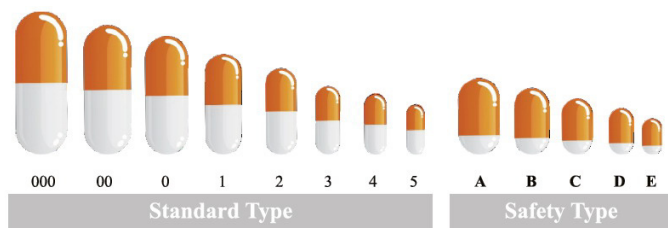

# VAF-60

## Laboratory Capsule Filler

The VAF-60 is primarily designed for R & D with an output up to 3,600 capsules per hour with a fully automatic control system and user-friendly touch screen HMI

The VAF-60 is manufactured to the highest standards and compliant with current GMP and CE standards

### Operator Access

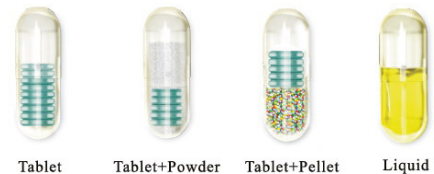

The VAF-60 has two large side hung and two rear doors which give complete access to all areas of the encapsulation zone and allows easy cleaning and maintenance.

### Compact Design

The VAF-60 is one of the smallest fully automatic capsule filling machines, it requires minimal space and is mounted on its own mobile stand.

Technical Data	VAF-60
Applicable Capsule Models	000# 00# 0# 1# 2# 3# 4# 5# A# B# C# D# E#
Max Output Capacity (pcs/min)	60
Power Supply	1PH 220V 50Hz/60Hz 110V 60Hz 0.5kw
Air Compression	0.1 m3/min 0.05MPa
Vacuum	2m3/min -0.1MPa
Noise (dB)	<70
Dimension (mm)	605X605X1000
Weight (kg)	150
